

Protect the Air Space in your Home or Office 24/7/365

PureAiRx Sterile Sweep® UVC Technology:

Proven to Inactivate Viruses and other Pathogens, including SARS-CoV-2 (COVID-19 virus)

The CDC/EPA¹, report that viruses like Sars-CoV-2, the virus that causes COVID-19, are spread through large respiratory droplets that can land on surfaces and smaller droplets that can stay suspended in the air from a few minutes to a few hours. The CDC encourages us to follow their guidelines² by social distancing, washing hands, and cleaning household surfaces to reduce the impact of these larger droplets. Epidemiologists, Pulmonologists³, and other medical experts also suggest that you be proactive in protecting the air space in your home from these smaller airborne respiratory droplets.

Your HVAC system recirculates all the air in your home 3 – 5 times an hour, redistributing air throughout your home that can carry these smaller respiratory droplets. This makes your ductwork the perfect location to install a PureAiRx Sterile Sweep UVC System to

disinfect your air space 24 hours a day; naturally and without adding any chemicals, sprays, or gases to the air that you breathe.

For decades, independent lab studies have shown that the power of the UVC energy will inactivate surface and airborne bacteria and viruses like MERS, SARS, influenza, tuberculosis, coronaviruses, and now Sars-CoV-2! The PureAiRx Sterile Sweep UVC System is 330% more powerful than standard residential UVC lights and will inactivate viruses and bacteria including the SARS-CoV-2 (COVID-19) virus and other harmful pathogens that move past it in the HVAC ductwork. According to the American Journal of Infection Control, it takes 1,048 microwatts to inactivate the Sars-CoV-2 virus. The PureAiRx Sterile Sweep produces 1,500 – 5,500 microwatts from 13 inches to 1 inch away from the lamp which gives it a large 26" complete inactivation zone around the lamp within the ductwork.

Be proactive and protect the airspace in your home or office TODAY with a PureAiRx Sterile Sweep UVC System in your HVAC system.

PureAiRx Sterile Sweep®
Germicidal UVC System
